Bridge and Version Cue CS3 Essential Training - 02NYL605 - lynda.com

Product Description Time

Bridge and Version Cue CS32 Essential Training

Approximately 5 Hours

To help CS3 users manage photos and other digital files that can become overwhelming, Adobe has introduced Bridge CS3. In Bridge and Version Cue CS3 Essential Training, instructor Ted LoCascio teaches viewers how to use Bridge to take full advantage of each application and better manage files for individual and group projects. Complementing Bridge in the file management process is Version Cue CS3, a server-based workgroup collaboration system that also works with all the CS3 applications.
